ABOUT ME

I'm not a professional photographer but just interested in travelling and documenting the world with my camera. My lens mainly focused on cities,, architectures, sports, natures, basically just anything i find pretty or meaningful.

I use Fuji XS-10 to ensure high-quality results. Always intereted in learning differencnt cameras!

That huge camera on the ground was from uni not mine

I used to be the manager of men's basketball team in university and voluntarily took these pictures because they were every player's own memory.

BASKETBALL

SKATEBOARDING

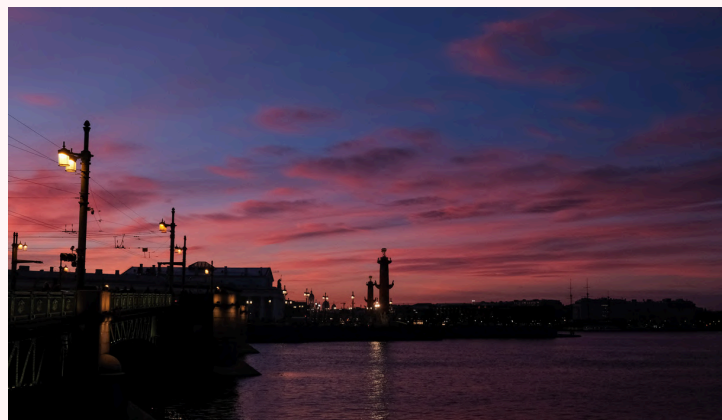

it just look so cool..
